Important Safety Instructions

- It is recommended that this product be assembled by ages 18+.
- Use personal protective equipment (not included) when operating power tools.
- Do not expose power tools to water. Use a GFCI protected power supply when operating near water.
- Product must be assembled in the instructed order to prevent injury.

Usage & Maintenance

- Use caution when using the LakeEze® Ramp Rack.
- Be aware of your surroundings to ensure the area is clear of traffic.
- Do not exceed capacity of 350 lbs on LakeEze® Ramp Rack.
- Do not throw items in the LakeEze® Ramp Rack.
- You may want to secure items in the event of inclement weather.
- LakeEze® Ramp Rack is not designed for unsupervised children under 5 years old.
- Check that all fasteners are tight before using.

Tools

Tools Needed for Installation:

- 7/32" Allen Wrench
- Razor Knife

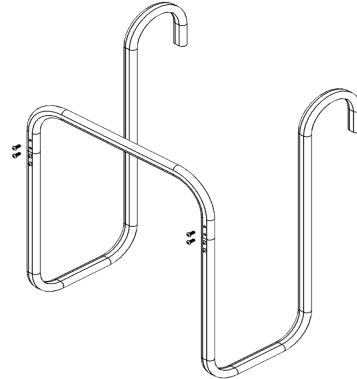

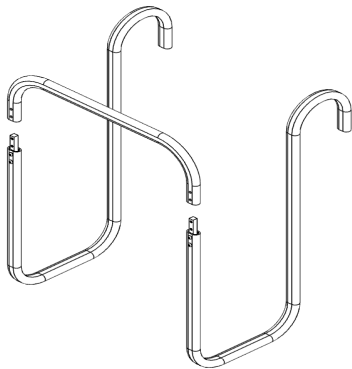

Packing List

Included Hardware:

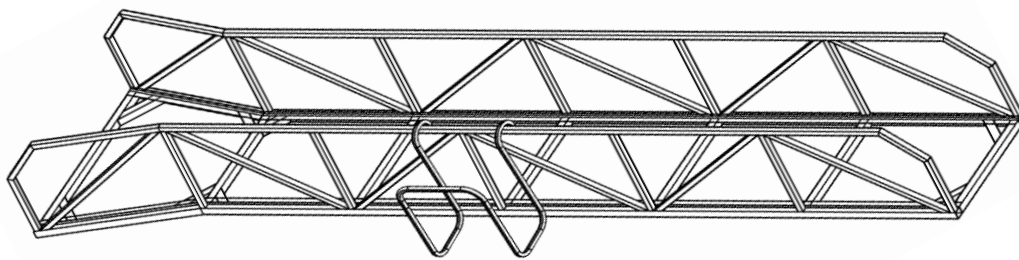

- 3/8-16 x 1" Pan Head Bolt (x4)

Assembly & Installation

- 1) Place the center rail over the internal connection bars. The connector bars should be loose at this time.
- 2) Loosely install the four remaining bolts. Ensure the rails align smoothly then tighten all bolts.

- 3) Gently place your assembled LakeEze® Ramp Rack onto your handrail. Ensure the assembly rests against a structural component of the handrail near the bottom of the Ramp Rack.

Installation of the LakeEze® Ramp Rack is complete
