Ramp Rack

HAND-CRAFTED, AMERICAN MADE
Built for Life on the Water

Ramp Rack

Our exclusive LakeEze® Ramp Rack is a **storage rack** that makes storing your paddleboard, tube, or kayak **easy** and **convenient**. The frame is bent out of 3 pieces of 6063 T5 custom aluminum profile and is designed to hang **securely** over the railing of your dock's ramp.

Key Features:

- 1 Easy solution to dockside storage and de-cluttering
- 2 Allows for easier access to water toys
- 3 Provides storage options without sacrificing any deck space
- 4 Made with high-quality aluminum with stainless steel hardware, all rust-resistant
- 5 Provides the option of additional security of belongings
- 6 Design can accommodate a variety of water toys
- 7 Holds items up to 17.25" thick with a floor depth of 39.125"
- 8 No installation required, simply attach to ramp using the 2 hooks

Dimensions:

- **35"** width to support longer water toys such as paddleboards, kayaks, canoes, floating pads, etc.
- **39.125"** from the hanging point to the floor for a shorter reach to grab handles
- **17.25"** inside dimension "U-Hook" is wide enough to accommodate water toys such as tubes, floats, etc.
